The Global Challenge of Autism

By Committee on F House of Representatives

Createspace, United States, 2014. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book ***** Print on Demand *****.This report examines the impact of Autism Spectrum Disorder (ASD) around the world. Studies in Asia, Europe, and North America have identified individuals with ASD, with an average of about 1 percent of the population. The prevalence of autism in Africa is unknown, but there is no reason to believe that it is any different, it might even be worse, than other parts of the world. A new study recently found that each case of autism costs \$2.4 million over a lifetime, including the expense of special education and lost productivity for their parents. Meanwhile, 85 percent of autistic adults are jobless or underemployed. It is therefore imperative that people with ASD are empowered to be self-sufficient so they can not only earn money to meet their own needs, but they also can utilize their very special talents that they possess to contribute to society at large. This hearing will examine some innovative strategies to achieve that important goal.
