

Advanced Marine Electrics and Electronics Troubleshooting: A Manual for Boatowners and Marine Technicians

By Edwin R. Sherman

International Marine Publishing Co. Paperback. Book Condition: new. BRAND NEW, Advanced Marine Electrics and Electronics Troubleshooting: A Manual for Boatowners and Marine Technicians, Edwin R. Sherman, Save time and money with this state-of-the-art guide to the latest, most advanced diagnostic equipment and techniques. "Ed Sherman is one of America's great teachers and communicators of marine technology." (Tim Murphy, former executive editor, *Cruising World*). Whether you are a marine electronics professional or a boatowner, Advanced Marine Electrics and Electronics Troubleshooting helps you understand the new, more powerful methods of troubleshooting marine electrical and electronic systems. A modern boat's sophisticated installations and networked electronics can stretch the traditional diagnostic methods, based on trouble lights and multimeters, past their useful limits. This book will show you how to: use microprocessor-based diagnostic tools and techniques from the automotive and communications sectors, adapted for boats for the first time; diagnose the most difficult AC and DC problems; protect communications and navigation electronics from interference and lightning; and seek out and eliminate stray-current sources and galvanic corrosion.
