Inasmuch as electric energy is ordinarily sold on the basis of maximum demand, as well as on that of energy consumption, it is necessary to design electric heating apparatus for low demand and long hour use, rather than high demand and short hour use. Arrangement for off-peak power consumption is also desirable when conditions will permit. Apparatus designed with minimum wall surface in relation to content will obviously be more efficient than if made in other forms. Applications of Electric Heat.--Perhaps the most important application of electric heat is...
