CARNEGIE INSTITUTION OF WASHINGTON

Filesize: 4.88 MB

Reviews

Very useful to all category of men and women. I actually have study and i also am certain that i am going to going to read through again once more down the road. Its been written in an exceptionally simple way and is particularly only soon after i finished reading this publication by which basically altered me, modify the way in my opinion.
(Dr. Sarai Fisher DDS)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 68 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 edition. Excerpt: . . . E as this initial direction. The positive rotation around a point, or, what comes to the same, the positive circulation around a closed curve, is always to be defined in accordance with the positive-screw rule. Most of our charts will represent fields which are contained in horizontal or quasi-horizontal surfaces. As we count the normal to these surfaces positive upward, the positive rotation around the normal will be a rotation against the motion of the hands of a Watch and the positive circulation will be the cyclonic circulation E. --N. ---W. --S. of the northern hemisphere. (Compare the dial of fig. 32.) We shall agree to consider all given angles a, B, . . . which are used to represent the direction of given vectors as produced by positive rotation from the chosen initial direction. Thus all initially given angles will be represented by positive numbers which are smaller than the number used to represent four right angles, i. e. , in our measure positive numbers smaller than 64 (see fig. 75). When we form sums or differences of the numbers which represent the given angles we may come both to positive numbers which are greater than 64, and to negative numbers. In such cases we shall always by subtraction or addition of 64 (or a multiple of 64) reduce to a positive number smaller than 64. This will always be allowed by the general reason that there is no difierence between the...
