This popular course, which is the basis of the book, has been offered through the Super Saturday Program, here in Cincinnati for almost thirty years. This program, offered by PAGE - a 501(c)(3) nonprofit organization, serves the best and brightest young minds in the region, on a campus of the University of Cincinnati. Both students and their parents have grown to love the Math-A-Nation course and have helped add to and polish its content over the years. Parent and student feedback always mentions that these math topics and techniques are not available to them through traditional educational channels. Overall, this book was written to insure that my children, and yours, are equipped with these important math concepts for mental training designed to insure their preparation in the modern competitive world. Parents tell me that this math thinking helps their children acquire a mental edge....
