Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Household Science and Arts for Elementary Schools Household Science and Arts aims first and last to be practical. Its suggestions as to best ways of keeping a house clean and sanitary, its advice in regard to the care and preparation of wholesome foods, and its formulation of about three hundred fifty recipes are all to the point. They are, moreover, such as may be followed in all homes. Because it is easy to find elaborate recipes and difficult to secure a collection suggestive and useful to the average housekeeper, this book has embraced only that which is well within the reach of the typical American home. All directions within these covers are expressed in simple language. This fact makes the book easily understood by young students, and saves time and thought for young housekeepers. In the outline of preliminary lessons, teachers may find a suggested order of making girls acquainted with the kitchen and its equipment. This acquaintance should be made very informally, with no attempt to cover in the first lesson more than the general and familiar kitchen furnishings and tools and their place and order. The individual cooking utensils, unfamiliar in name and use, should be taken up just before need of each is felt, so as to avoid confusion of mind arising from trying to learn many new things at once.
